Dear Mr. Ehmen:

Re: Disposal of Asbestos Insulation from
Mobil Oil Corporation, East Chicago

This letter acknowledges the request for disposal dated
January 14, 1985, from Mobil Oil Corporation.

Approval is hereby granted for disposal of 600 cubic yards per
year of asbestos insulation at the Wheeler Landfill, OPP. No. 64-3,
Porter County. The waste is to be covered with a minimum of six inches
of cover soil or solid waste immediately.

The approval is granted subject to the following conditions:

1. The generator and/or hauler must contact you to notify you of the time of disposal and conditions of shipment.
2. Appropriate protective clothing should be used during handling and disposal to ensure proper protection from exposure to the material, especially from inhalation.
3. All asbestos must be sufficiently dampened to prevent airborne contamination during compaction and bagged in 6 mil plastic bags.
4. If nuisance or pollution conditions are created, immediate corrective action will be taken by the operator.
5. Waste material accepted under this approval shall be included on the Special Waste Monthly Report to be submitted to this office monthly.
6. This approval will expire January 31, 1986.

This approval will be revoked if the landfill fails to maintain compliance with 330 IAC 4-1, et seq. (Regulation SPC-18). Any necessary local approval must be obtained, but is not required for this approval to be valid.

If you have any questions, please contact Mr. Lewis R. Schoenberger of the Solid Waste Management Branch at AC 317/243-5035.

Very truly yours,

A handwritten signature in cursive script, reading "Ralph C. Pickard", followed by a long horizontal flourish line extending to the right.
